

CARTON FLOW DIVIDERS & ENTRY GUIDES

Faster Carton Flow Pick & Putaway is a Snap!

Snap-in entry guides and full-length dividers maximize SKU slots and improve pick speed and accuracy. Use our chart to match the right options with your carton flow product.

Dyna-Flo and Dyna-Deck carton flow products create a full-wheel bed shelf to accommodate cases and totes of any size. With a quick Snap, you can physically segment SKU lanes to help your team achieve more productive and accurate putaway and picking.

Carton Flow Entry Guides & Dividers

Advantages

- Easily clip into carton flow beds
- Faster reprofiling reduces labor costs
- Adjustable anywhere across the carton flow shelf
- Segments SKUs for faster picking
- Improves pick accuracy
- Maximizes SKU slots

- Snug-fit yet allows play to prevent breaking
- Durable plastic for long-term use

Full-Length Lane Divider Products

You have several options to create full-length lane dividers for your Dyna-Flo or Dyna-Flo HD applications. If you choose the snap-on dividers, you can connect them along each SKU lane with steel rods. However, if you expect regular re-slotting and SKU changes, consider our full-length dividers.

Snap-On Plus Steel Connector Rods

Full-Length Dividers

Full-length dividers are adjustable along the entire wheel bed. The guide holders attach to the front and rear beams, and the steel connector rods simply slip into place with the divider rods connecting the two sides.

Install on Load Side

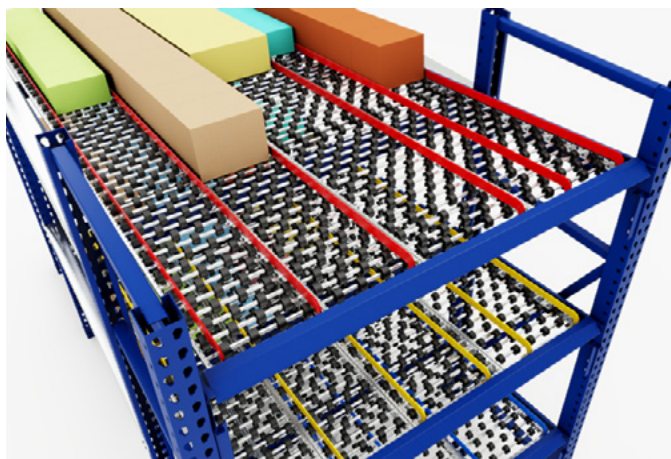

Install on Pick Aisle

Dyna-Deck Full-Length Lane Divider

New Dyna-Deck with full-length dividers is designed for optimum efficiency. Our patent-pending design promotes quick installation and easy SKU reprofiling.

- Curved design & smooth finish prevent injuries to workers' hands.
- Fold-over shape & reinforced hem ensure durability.
- Lightweight dividers are easy to handle.
- Custom holder bracket enables quick installation and reprofiling.
- 5 standard powder coat colors --go with all one or color-code your pick levels for improved productivity.
- Available exclusively on new orders.
