

PATENT PENDING

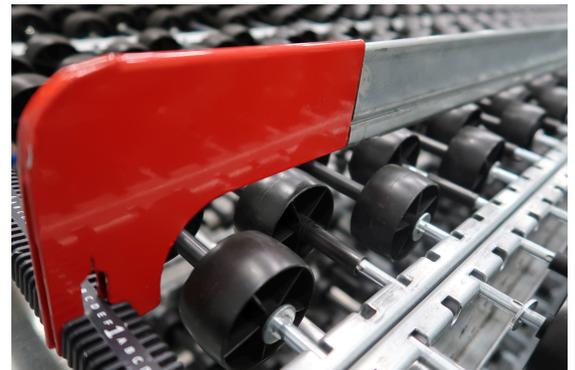

Faster Picking Starts with Snap-In Carton Flow Dividers!

Maximize space, minimize effort – smarter carton flow organization for faster SKU slotting.

Slim-Fit full-length dividers are designed with your needs in mind! Our patent-pending, knock-down design ships in three easy-to-handle pieces and makes installation and SKU reprofiling faster and easier than ever. The slim profile optimizes shelf space and deters pest activity, particularly vital for food and health product storage.

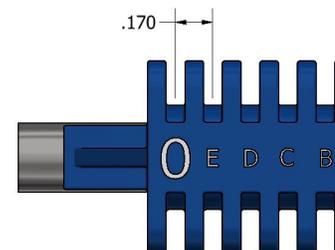

Key Features:

- **Quick Installation:** Slotted brackets on both sides of the lane, featuring mirror-imaged numbering, ensure fast and accurate two-person slotting and reslotting
- **Color-Coded Picking:** - Choose 1 or all 5 color options
- **Secure Fit:** Custom locking design prevents holders from rotating
- **Maximizes Shelf Space:** Thin profile and infinite adjustability
- **Safety:** Smooth, rounded edges protect workers hands

Designed with Your Workflow in Mind

Dividers snap easily into custom slotted brackets, adjustable in 0.170" increments to create snug SKU slots of any width, reducing wasted space.

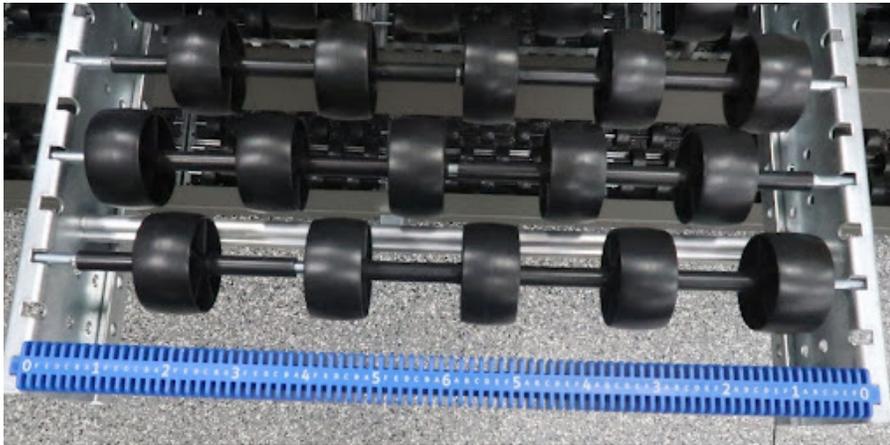

Slim-Fit Divider Specs

- Compatible with new or retrofit Dyna-Flo, Dyna-Flo HD & Dyna-Deck
 - Ordering instructions: # of SKU lanes +1 for full containment
