

**Store more, pick faster—up to 60% more SKUs with 40% less labor.**

When SKU counts grow and floor space doesn't, Dyna-Pick delivers organized, quick-access, high-density storage.

Transform unused space beneath pallet racks into organized, high-density storage for each picking and small parts.

Dyna-Pick delivers measurable value in:

- **Pick speed** – faster, ergonomic access to every SKU
- **Accuracy** – clearly labeled bins for reliable fulfillment
- **Organization** – reduce clutter and confusion

## What Makes Dyna-Pick Different

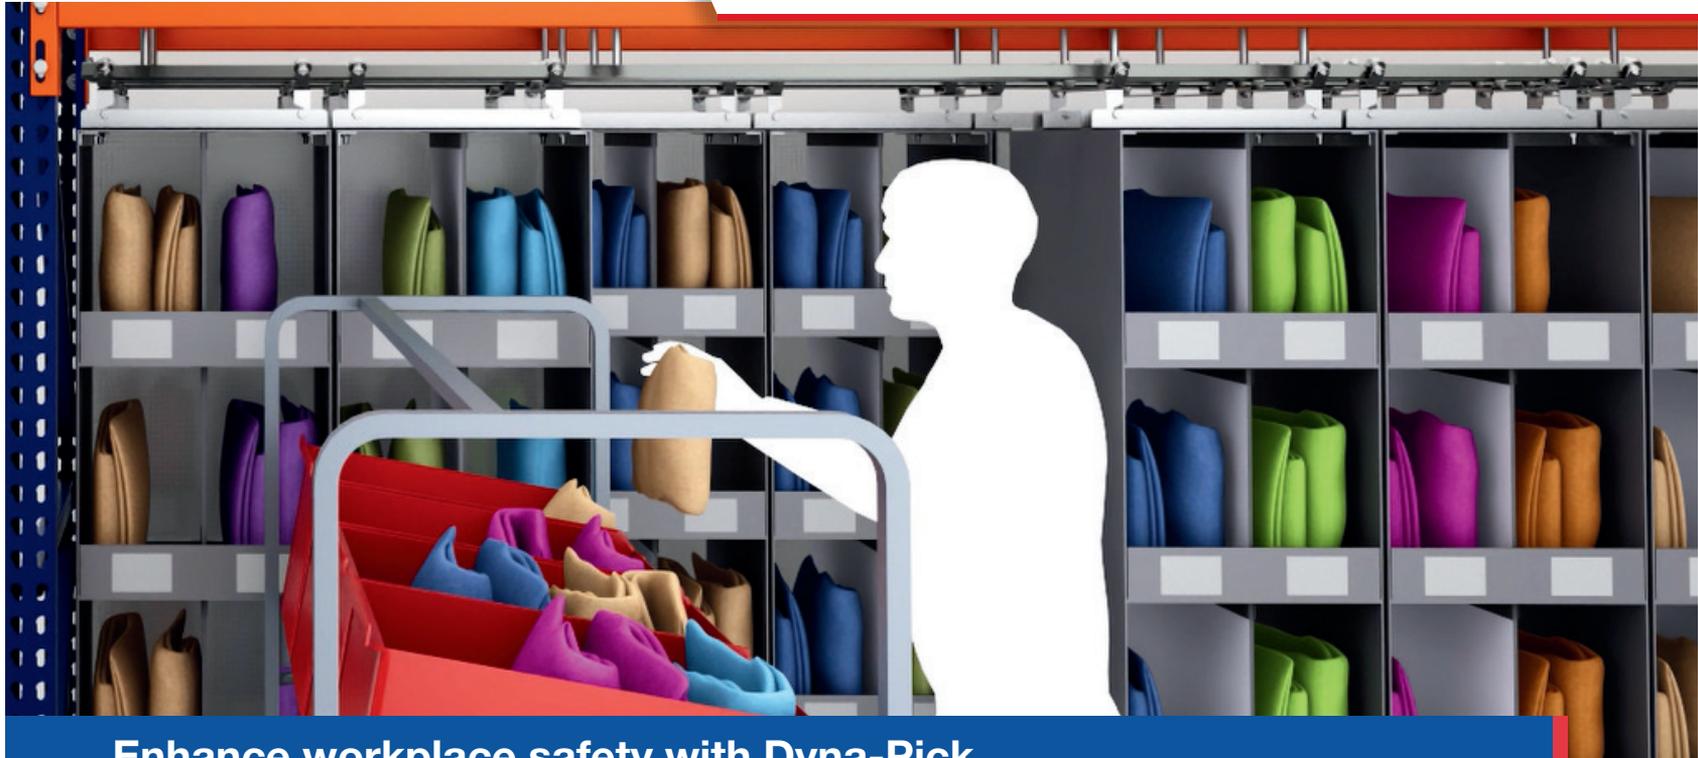

**Smooth, Accessible Operation:** Front panels glide side to side for easy reach-through access and fast, consistent picking.

**Quick Connect Bracket:** Lift, hook, and go. Tool-free setup and fast reconfiguration keep your operation moving.

**Spill-Free Design:** Reinforced front flap keeps product contained and barcodes visible for quick scanning.

**Label-Ready & Automation-Compatible:** Bins feature label/bar code holder and are compatible with automated picking technologies.

**Smart Suspension Design:** Unlike traditional hanging bin systems, Dyna-Pick's frame mounts inside the rack beam—not over it—eliminating front-face snag points and keeping the system sleek, safe, and efficient.

## Enhance workplace safety with Dyna-Pick.

Rugged canvas and steel construction installs easily on new or existing racking.

### Dyna-Pick Product Specs:

Type	Panel Size	Cells Per Panel	Front Row	Back Row	Max Weight Per Cell	Max Capacity Per Cell Column
Small	14"H x 15"W x 20"D	10*	7 panels	9 panels	40 lbs.	200 lbs.
Medium	14"H x 11.5"W x 20"D	5	9 panels	11 panels	25 lbs.	125 lbs.
